JUNIOR UX/UI DESIGNER

User research | Prototyping | Design systems | Usability Testing

Curious and determined Junior UX/UI Designer with a strong foundation in user research, prototyping, and design systems. My background in content creation and problem-solving fuels my passion for crafting seamless digital experiences. Transitioned from a four-year career in the automotive industry to follow my passion for design and technology. Experienced in Figma, Adobe Suite, and usability testing.

EDUCATION & CERTIFICATIONS

UX/UI Hands-on Training Program | KreativStorm | Nov/2024 – Jan/2025

IT consulting company offering specialized courses to enhance professional skills

- Designed a high-fidelity prototype for a travel booking app, improving usability by streamlining the booking process through intuitive UI components.

Master in UX/UI Design | Start2Impact University | Aug/2023 – Feb/2025

Online learning platform offering professional courses with real projects reviewed by industry experts

- Led user research, conducting surveys to identify core pain points.
- Designed low- and high-fidelity wireframes, ensuring an intuitive and seamless user experience.
- Developed a custom design system with 50+ scalable UI components.
- Created interactive prototypes for usability testing and iteration.
- Optimized user flows, reducing navigation complexity and enhancing task efficiency.
